Errors

F.A.Q.

Requirements

Hardware

- Pointing Device
- Keyboard
- Display (800*600) or more

Minimum Requirement

- Windows XP
- 1GB RAM
- 1 GHz Intel Core 2 Duo

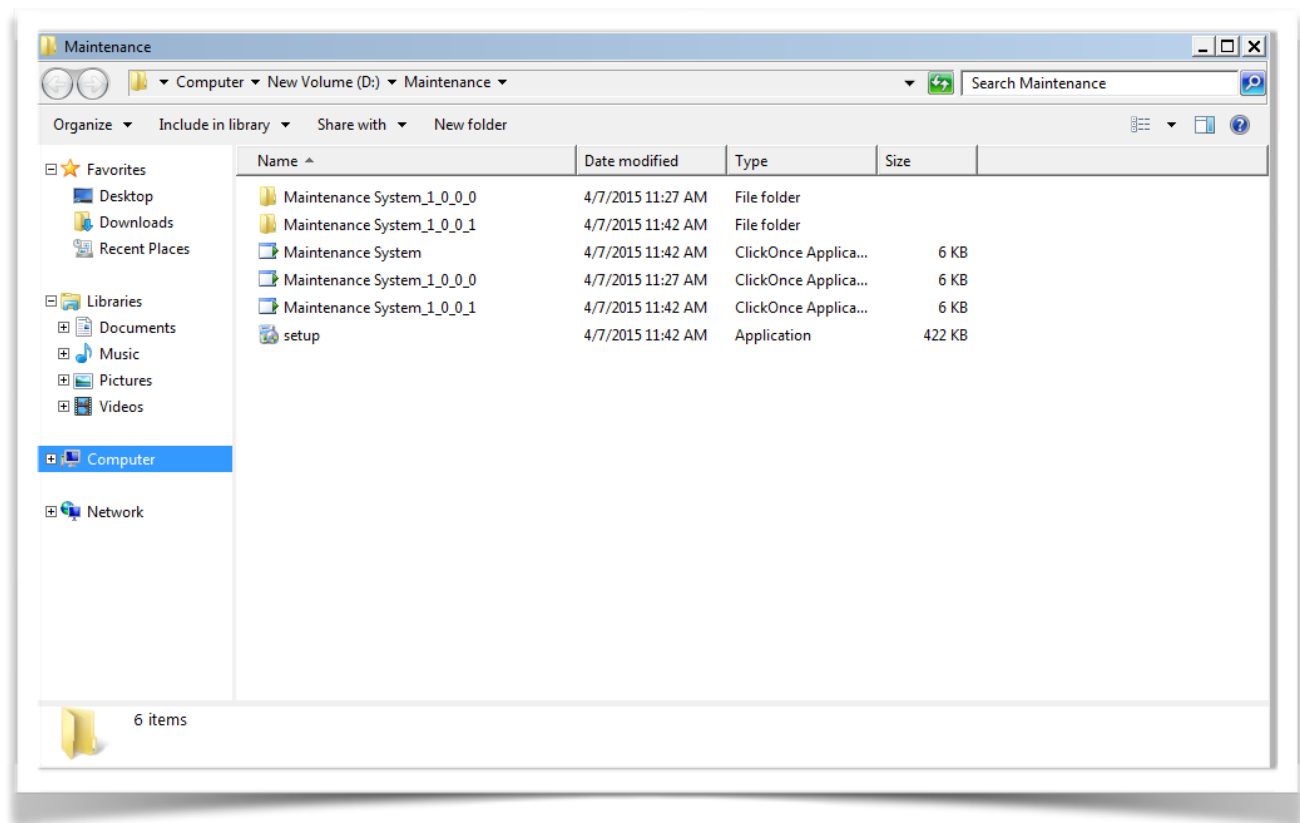

Recommended

- Windows 7 Service Pack 2 or later
- 2 GB RAM
- 1.2 GHz Intel Core 2 Duo

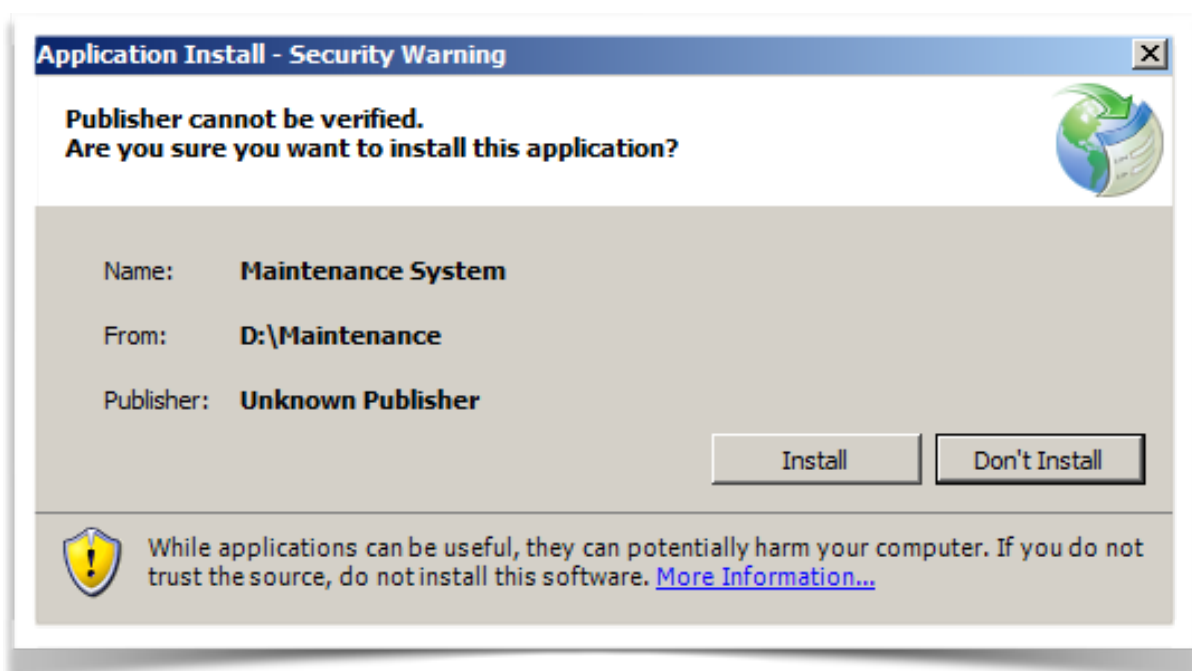

Getting Started

Installation

1. Access the folder in which the setup file is located

2. Double click on 'setup.exe'
3. Follow the prompts and install the software

Login

Enter Username and Password

Click on the Login button

The screenshot shows a window titled "Login" with a dark blue header and a dark blue body. The body contains two input fields: "User Name:" and "Password:". Below the input fields is a "Login" button. The window has a title bar with a close button (X) and a maximize button. Annotations with dashed lines point to the close button and the Login button.

F.A.Q.

Q: What if I don't have an account?

A: Only the admin has the privileges to create a new account. Contact the admin if you feel you need a user account

Q: How do I delete a log?

A: You can't. Logs once entered into the system need to stay.

Q: How can I take a print out of the logs?

A: There is currently no built-in feature for printing. However, you can use the print screen function or any other screen capture software to obtain a picture, which can be printed out.

Q: How can I backup logs?

A: There is currently no built-in feature for backing up. However, you may create a copy of the 'Database.accdb' file that can be found in the installation directory

Q: Where is the search button?

A: There is no search button. Enter any string in the search bar and the logs will filter realtime based on the search text.

Q: How can I take a print out of the logs?

A: There is currently no built-in feature for printing. However, you can use the print screen function or any other screen capture software to obtain a picture, which can be printed out.

Q: How do I undo the changes I have made to the logs?

A: You do not have to do anything. You may close the software or browse other screens. When changing screens, you may be asked whether you would like to save changes, just click no.

Q: Does the admin know which user added the log?

A: Yes. The admin can has an extra column when viewing logs which states the name of the user who added the log.
